

Mahdiar Naghizadeh

Python Developer | Data Scientist (in Progress) | AI & Machine Learning Developer

✉ mahdiarn@gmail.com ☎ +989035950357 📍 Tehran Province, Iran

🌐 in/mahdiar-naghizadeh

Professional Summary

Python Developer and AI practitioner with hands-on experience in **machine learning, data analysis, and AI-powered automation**. Skilled in **Python, Scikit-learn, Pandas, NumPy, and applied mathematics**, with a growing focus on **building intelligent systems and agents**. Strong analytical mindset, problem-solving abilities, and multilingual communication skills.

Experiences

Freelance Python & AI Developer	11/2023 – PRESENT
- Built and deployed a Telegram bot to automate communication and information delivery. - Developed a website using AI models to enhance user interactivity and data processing. - Resolved complex coding issues by analyzing error messages and implementing effective fixes.	
Freelance Teacher	08/2023 – PRESENT
- Taught Python programming, English language, and Mathematics to individual learners and small groups. - Designed lesson plans tailored to student skill levels and objectives.	
Freelance Translator	07/2021 – PRESENT
- Translated and localized subtitles, videos, and voice content between English and Persian. - Delivered accurate translations for technical, academic, and general audience content.	
Mentor, Yasan Academy (Part-time)	08/2025 – Present Tehran, Iran
- Mentoring youth learners in Python programming, with emphasis on algorithmic thinking and structured problem-solving. - Guiding students in debugging techniques, code optimization, and clean coding practices that reflect industry standards. - Designing and delivering hands-on exercises and mini-projects to build practical programming skills and reinforce theoretical concepts. - Providing constructive feedback and fostering a growth mindset, encouraging continuous learning in computer science fundamentals and software development practices.	
Information Technology Specialist, Kian Rayan Novin (Part-time) 	10/2025 – Present Tehran, Iran
As an IT specialist, I'm responsible for maintaining and improving the company's IT infrastructure, ensuring smooth operation of systems, networks, and devices. My work involves troubleshooting technical issues, managing user accounts, optimizing performance, and supporting both hardware and software systems.	

I collaborate with different departments to enhance productivity through efficient IT solutions, focusing on reliability, security, and scalability.

Education

Bachelor's degree, Applied Mathematics, Imam Khomeini International University 09/2023 – Present

Skills

Python Programming	● ● ● ● ●	Data Science	● ● ● ● ●
Machine Learning	● ● ● ● ●	Artificial Intelligence (AI)	● ● ● ● ●

Projects

A Comparative Study of Ensemble and Classical Machine Learning, Models for Kidney Stone Diagnosis 04/2025 – 06/2025

Conducted a full machine learning research project predicting kidney stone presence using urine analysis data. Utilized real-world inspired with advanced preprocessing (SMOTE, MinMaxScaler, feature selection). Trained and evaluated models including Logistic Regression, Random Forest, SVM, XGBoost, and AdaBoost. Achieved highest accuracy of 93% with AdaBoost and 91% AUC with a Stacking Classifier. Included statistical analysis and hypothesis testing to validate feature significance. Results highlight the potential for AI-driven diagnostic tools in healthcare.

Certificates

- | | | |
|--|-----------------------------------|--|
| • Introduction to Data and Data Science | • Intermediate Python Programming | • Introduction to Programming Using Python |
| • Introduction to AI | • Mathematics Certificate | • Understanding Prompt Engineering |
| • Introduction to Artificial Intelligence using Python | • Mathematics | • Scikit-Learn for Beginners |
| • Machine Learning With Python | | |
